Questions? And to register, contact August Edward at littlefootfields@gmail.com 613.390.1971

23 John Watson Road, Rockingham, Ontario, K0J 2N0

DAY ONE of this Fall Festival begins with an exhibition of a full-scale *Dairy and Creamery*.

Farmer Ed opens the gates of Littlefoot Fields to the *dairy-curious*. By participating in this hands-on demo-day, you will discover all about operating and maintaining a Dairy Farm: From udder to cheese and all the heifers in between, as well as a tour of the Fields and Forest, summer milking parlour and rotational grazing system.

SATURDAY 8am: Festival Greetings and Orientations with coffee-tea

9am: Cheese-Making Tutorial

12pm: Lunch Included

2pm: Dairy Lecture – “Economies of Scale”

3pm: Field and Farm Tour

5pm: Evening Milking

Economies of Scale is the theme of Littlefoot Fields, located in the margins of geography. Over a decade ago, August Edward dedicated their lives to working with cattle and has designed this Demonstration Farm to be a practical model of agriculture. With thoughtfulness, work and prayer, being with the land can be more than an extractive exercise, that neither exhausts the farmer nor the farm.

DAIRY FARM DEMO & BioDynamic + 3Fold WORKSHOPS

Fall Festival in Rockingham, Ontario

2022 – “Economies of Scale”

October 1st and 2nd

DAY TWO

An introduction to Rudolf Steiner’s Anthroposophy through the Threefold Social Organism and Biodynamic Practices. Though this day is geared to the novice, those experienced are most welcome to help round out the conversations.

SUNDAY

9am: Festival Greetings and Orientations with coffee-tea;

10am: Sebastián introduces then elaborates on the universal structuring of society as outlined by Rudolf Steiner in the **Threefold Social Organism**;

12pm: Potluck Lunch;

2pm: A practical introduction to Biodynamic gardening and farming through the building of a **compost pile** and use of the **herbal preparations** with August Edward.

Sebastián Bilbao is an Anthroposophist who encountered Steiner's World Economy Course at the height of the subprime mortgage crisis, which coincided with the appearance of blockchain technology. Since then, he has advocated Rudolf Steiner's socioeconomic legacy via online courses, documentary films and emerging financial technologies as a way to mitigate future social tensions.
